I think Map 1C does a good job of keeping suburban neighborhoods together with a tighter city area. Unlike the prior map approved, I feel the people of my community, The Orange Glen High School area, are actually kept together as they should be. I would be happy if this is the final map.

Thank you, commissioners, for working toward a north/south east/west compromise at last week's public hearing.

I hope you will continue to work from map visualization 1C, as it better matches the east/west divide that Latinx community leaders have been asking for.

Thank you.

Thank you for your hard work and requesting public comments. After reviewing both maps, they both appear to good for our districts. If I had to choose, I would probably choose Visualization 1C.

Thanks you.
